In response to the high-demand for quality home care products that really work, Footlogix® is excited to offer a retail solution for soft, smooth feet!

Footlogix® has developed a new product by reformulating the Professional Callus Softener spray for at home use. When combined with the Footlogix® "At Home" Foot File, this combo provides an effective hydrating, softening treatment for dry, rough, cracked and callused feet.

The ultimate at home pedicure!

Features & Benefits

- Created specifically for use as an at home pedicure
- The Ultimate "At Home" Foot Care Combo makes exfoliation of hard, callused skin fast and easy, leaving feet feeling smooth and revitalized.
- Footlogix Callus Softener is a non-aggressive formula that does not need to be washed off, as it will continue hydrating the skin after use.
- Packaged in an easy to use 360-degree spray bottle, it works from any angle (even upside down) to spray hard to reach places.
- The Footlogix "At Home" Foot File is double-sided, made with high-quality stainless steel, it is light-weight, easy to use with a rubberized handle.
- The foot file can be used multi-directionally without shredding the skin
- The foot file is easy to clean - wash using a brush with soap & water.

The Results Speak for Themselves

BEFORE AND AFTER

After 1 Use

Ultimate "At Home" Foot Care Combo

The image displays two products from the Footlogix line. On the left is a white spray bottle with a clear cap. The label features a purple footprint graphic and the text: 'footlogix', 'Where Pedicures Meet!', 'CALLUS SOFTENER', 'SPRAY/AEROSOL', 'ADOUCEUR DE CALLOSITES', and '18'. On the right is a grey foot file with a textured, oval-shaped head and a handle with a circular hole at the end. The brand name 'footlogix' is printed vertically on the handle.

Footlogix® Callus Softener and "At Home" Foot File

Guide Your Clients on How to Use

- From a distance of approximately 10cm spray Footlogix Callus Softener on the callused areas of the feet.
- Allow to penetrate for approximately 3-5 minutes
- Exfoliate with the foot file once the skin is no longer wet but still tacky. Start with the coarse side to file calluses and rough skin. Finish with the fine side to smooth the skin. Repeat above steps as needed.
- Callus softener does not need to be washed off as it will continue hydrating the skin after use.
- The Footlogix "At Home" Foot file is easy to clean - wash using a brush with soap & water.
- Use weekly to maintain happy healthy feet.

Size: 100ml | 3.3 fl.oz

REVIEWS

Baby Soft Feet

Works great when used together. A few burst of the spray followed by filing keeps my feet baby soft for days. Totally worth buying
